Riverslea Digger
13 months - 546kg

We can offer you diverse, quality assured, award-winning genetics.

Contact Alan or Sonia now to discuss your bull requirements and marketing options, and our 'BEST BEEF BUY BACK' program.

Riverslea – what our stud will do for you:

- Fresh outcross genetics
- Bulls grown under realistic commercial conditions – ready to work
- High fertility
- Great temperament – quiet cattle eat better, convert feed better, stress less and have better carcass quality. Our quiet cattle are safer and easier to handle.
- Soft easy coat – for that extra polish at the finish
- Commitment and Care – bred by people who know stock
- Excellent health status
- Award-Winning performance
- Quality Assured – including CattleMAP
- Bulls to suit your specific needs
- Ultimate crossbreeding bull
- Best Beef Buy-Back program

Our stud cattle are independently classified to meet the 'minimum standards of excellence'.

Bulls and females for sale on farm and selected sales

Santa Gertrudis are renowned for:

- Rapid weight gains
- Outstanding feed conversion
- Bloat and tick resistance
- Heat tolerance
- Adaptability
- Resistance to eye cancer and pink eye
- Hardiness – ability to forage and walk for water.
- Small birth size – rapid weight gain
- Large mature frame
- High carcass yield and quality
- High milk values – including high butterfat percentage
- Longevity
- Finish on grass or grain
- Excellent maternal instinct
- Calving ease – in competitive tests Santa Gertrudis cows have produced consistently larger calf crops than other breeds.
