## *Welcome to our 7th Annual Sale*

What a difference 12 months can make! This time last year we were hoping to work our way out of the savage drought conditions. Persistence is rewarded with 2016 -2017 a year of 'Milk & Honey'. The farms and stock have responded. Crops are up and looking good. The cow herd has good cover and high early conception rates. The weaners are finally enjoying heading out onto quality pastures. The bulls have had a better run this year too.

Riverslea proudly offer for sale a run of 23 top quality bulls. These bulls are prepared under realistic commercial conditions - tough but fair. As a group they have developed exceptionally well and show great muscle, excellent confirmation and very good temperaments.

Ryalsea Santa Gertrudis have also been invited into our sale again this year. We do not take this decision lightly. But, on the back of their excellent bulls (and results!) last year we are very proud to have their 5 'S' classified bulls lined up beside ours. The Ryalsea bulls come to Riverslea as weaners and are prepared in the same mob.

Stud heifers - a tough decision to sell any of them! Our stud herd numbers are at a level where we want them, and the current weaner crop is over 2/3 females. We are proud to offer these outstanding young females to other breeders.

In the commercial portion of the sale - we have personally committed 120 ready to join purebred Santa Heifers. Our clients are also offering heifers sired by Riverslea bulls. Our selling agents Elders, have lines of females committed. As a combined agents sale we are expecting a large yarding - with the Santa Gertrudis females as the feature.

We are very grateful for your interest in, and support of our sale. We wish you all the best with your purchases. We are more than happy to assist with cattle selection and answer any questions you may have.

May our great local season continue, and would it please rain out west!

*Alan & Sonia Martin*

## Sale Information 2017

**Inspections:** We encourage pre-sale inspection of the stud cattle. Contact us to make a suitable time. Lots 4 and 34 will be exhibited at Brisbane Royal Show (EKKA).

**Health:** The bulls & heifers have all been vaccinated with 5in1 & Pestigard (boosters due May). All were drenched in June. The bulls will be subjected to a breeding soundness inspection by Inverell Veterinary Clinic, at the time of semen testing.

**Fertility Test:** Stud heifers will be pregnancy tested prior to sale. Bulls will be subjected to a crush side semen test prior to sale. The results will included on the supplementary sheet published at [www.riverslea.com.au](http://www.riverslea.com.au) 24 hours prior to sale, and available at the sale. Individual certificates can be provided on request.

**Insurance:** We recommend that you insure your purchases.

**Catering:** The Inverell Sale Yards operate a full canteen.

**Auction:** The sale will be operated under the standard Livestock Auction Terms & Conditions. For further information please contact the selling agents.

**GST:** GST is added to the sale price on invoice after the fall of the hammer.

**Breeding Guarantee:** In the unlikely event that there is a problem with your bull please contact us in the first instance. If the issue cannot be resolved we agree to credit the purchaser with a refund of the initial purchase price (without expenses, interest costs, damages or similar) less the salvage value of the beast. The credit can be used at our 2018 sale or on a paddock sale bull. Any complaint must be lodged within 6 months of purchase and be accompanied by a veterinary certificate. We may require the bull to be returned at our discretion. We cannot guarantee bulls against disease or injury sustained after sale.

**Outside Agent Rebate:** We will offer outside agent rebates. You must contact us 24hrs prior to sale day to arrange this.

Can't speak highly enough of this rising 10year old bull. He is so sound despite his work load (stud duties and commercial joinings). His stud progeny have gone on to perform exceptionally well in ours and other studs. Diggers progeny have proved themselves, having outstanding ADG's in feedlots and performance in grass fed enterprises. Digger is a consistent producer of top level calves, he adds a sleek coat, great temperament and muscle to our herd.
